Subject: Update to Early Childhood Development Transfer Assurance
Guide (TAG) Course OED010

Background

Senate Bill 216 went into effect November 2, 2018. This bill changed the Early Childhood Licensure band from Pre-kindergarten - Grade 3, to Pre-kindergarten - Grade 5. In a review of the effect this change may have on current TAG requirements, it was determined that the Early Childhood Development TAG course (OED010) requires a small modification.

Updates

In the review of the Early Childhood Development course, panel members determined that no changes are required for the current learning outcomes. However, the age span addressed in the course will change from the current "prenatal to age eight" to "prenatal to age 12" to appropriately incorporate the ages of children through grade 5. Please see the attached document reflecting the new language.

Implication to Your Early Childhood Development (OED010) TAG Course

The Early Childhood Development Faculty Review Panel considers the updates to OED010 not substantial enough for resubmission. Existing approved courses do not need to undergo review by the panel at this time. Faculty are simply asked to ensure that course topics and assignments extend from the current age 8 to age 12.

We wish to express our thanks for the dedicated work of the Early Childhood Development Faculty Review Panel for their collaboration in updating Early Childhood Development (OED010.).
